

SA Home Owner LOVES...

Beautiful metallics, bold colour and statement lighting

BEACH HOUSE BLISS

Decorated by Joseph Avnon Interiors, this living room blends classic and contemporary design with a coastal-inspired colour palette to create the perfect space to unwind and enjoy the panoramic ocean views at this Kenton-on-Sea holiday home. www.josephavnon.com

MODERN LUXE

This dining living room space was created to be modern yet simplistic in palette. The soft colours and clean-line furniture were designed to be sophisticated and timeless. The furniture is customised by Décor Identity Studio and Interiors, selecting each individual fabric and design to suit the interior space and the client's requirements. www.decoridentity.co.za

SHINE BRIGHT

Profess a love of light and shadow with the intricate texture of the luminous Omaha Vintage Chain pendant from the exclusive Zahavah Collection, from Illumina Lighting. It's made from a metal chain and is woven around the sturdy structure for textured looks that diffuse an ambient light. Its neutral tone complements a range of styles, from vintage to contemporary and bohemian-inspired, for versatility, perfect for your dining room or living area. www.illumina.co.za

GRACEFUL YET PRACTICAL

While always being aware of what is in vogue, The Kitchen Studio approach to design favours practical elegance over short-lived trends. Making use of Losan Acrylic high-pressure laminates, and the finest textured board imported from Spain, this kitchen demonstrates the company's ability to create graceful and practical contemporary kitchens. www.kitchenstudio.com

ICONIC INTERIORS

Beneath the exterior of an unassuming Cape Town row house lies this iconic interior design. With huge passion and understanding for all things interior design-related, Hendre Bloem pioneered this studio in 2012. It quickly established itself as a force to be reckoned with through local and international projects that focus on one-on-one service. www.hendrebloem.com

CONTEMPORARY DESIGN WITH HEART

In this project, Cape Town-based interior architecture practice MINC added texture and softness to the clean lines of the architecture through the use of natural materials, textured linens and rugs, and warm timber flooring. An important aspect to MINC's work is to include furniture pieces from local designers such as James Mudge, LIM and Clinton Friedman. www.minc.co.za

BOHO BLISS

This spacious master bedroom was the kitchen and dining area of the original house. The wooden floors were replaced with a light-coloured carpet for a cosier effect. To offset the large and white room, The Home Studio incorporated a variety of textures and natural greenery to give the space warmth and personality. www.thehomestudio.co.za

AN OASIS OF CALM

The Lago Wall Light by Astro from Newport Lighting offers elegant simplicity with its crisp white glass shade and a selection of bronze or chrome backplate and arm. www.newport.co.za
